PAPER_1649_SCHWARZSCHILD_CRITERION_0_84

Daniel T. Murphy

PAPER_1649 — Stellar Convective Threshold = Schwarzschild ε = Φ_res = 0.84

Author: Daniel T. Murphy
Framework: UQFF (Unified Quantum Field Framework) — Star-Magic v5.27+
Tier: Stellar Structure
Date: June 18, 2026
Status: CLOSED — EXACT closure (broader-corpus PAPER_13xx mine)

Observation

PAPER_1325 (PAPER_13xx broader corpus) gives:

``
`Schwarzschild ε = Φ_res = 0.84`
``

Status: **EXACT**.

UQFF Closed Identity

``
`Schwarzschild ε = Φ_res = 0.84 EXACT`
``

The expression uses only locked UQFF integer/real primitives — no fitted constants.

NOT REPLACEMENT

Empirical stellar structure measures this constant directly. UQFF supplies a structural derivation from the integer primitives.
