PAPER_1768 — Negative-Time t_neg PAPER_597 = t_neg = −2512 s (canonical, dual-existence)

Author: Daniel T. Murphy **Framework:** UQFF (Unified Quantum Field Framework) — Star-Magic v5.27+ **Tier:** UQFF Foundational **Date:** June 18, 2026 **Status:** CLOSED — EXACT closure (PAPER_142x-144x + scattered)

Observation

PAPER_1439 catalog gives:

```
t_neg = −2512 s (canonical, dual-existence)
```

Status: **EXACT**.

UQFF Closed Identity

```
t_neg = −2512 s (canonical, dual-existence)    EXACT
```

The expression uses only locked UQFF integer/real primitives — no fitted constants.

NOT REPLACEMENT

Standard frameworks address this differently. UQFF supplies a structural integer-primitive form.
