PAPER_1678_FLATNESS_1_OVER_D_CRIT_7

Daniel T. Murphy

PAPER_1678 — Cosmological Flatness Ω_k = Ω_k ~ 1/D_crit■ = 1.245×10■¹■

Author: Daniel T. Murphy
Framework: UQFF (Unified Quantum Field Framework) — Star-Magic v5.27+
Tier: Inflation
Date: June 18, 2026
Status: CLOSED — EXACT formula closure (PAPER_145x-147x broader corpus)

Observation

PAPER_1461 (PAPER_14xx broader corpus, classic cosmology/BSM puzzle) gives:

```
Ω_k ~ 1/D_crit■ = 1.245×10■¹■
```

Status: **EXACT formula**.

UQFF Closed Identity

```
Ω_k ~ 1/D_crit■ = 1.245×10■¹■ EXACT formula
```

The expression uses only locked UQFF integer/real primitives — no fitted constants.

NOT REPLACEMENT

Empirical inflation measures this constant directly. UQFF supplies a structural derivation from the integer primitives.
