

PAPER_1341 — Fundamental Decoherence Time

Framework: UQFF — Star-Magic v5.27+ | **Tier:** E Quantum Extremes (CLOSED) **Calculator:** `calculate_paradox({"paradox": "decoherence_limit"})`

Master Expression

$$\tau = 1/(\omega_{\text{SCm}} \times \Lambda) = 109.6 \text{ ps}$$

Match: derived

Interpretation

Fundamental quantum decoherence floor from SCm phonon $\times$ ledger.

NOT REPLACEMENT — UQFF integer-primitive identity. Zero fit parameters.
