

PAPER_1343 — Entanglement Entropy Area Law

Framework: UQFF — Star-Magic v5.27+ | **Tier:** E Quantum Extremes (CLOSED) **Calculator:** `calculate_paradox({"paradox": "area_law_entanglement"})`

Master Expression

$S_{\text{ent}} \propto A_{\text{boundary}}; D_{\text{boundary}} = D_{\text{BSFG}} - 1 = 5$

Match: STRUCTURAL

Interpretation

Holographic area law from $D_{\text{BSFG}} - 1$ boundary projection.

NOT REPLACEMENT — UQFF integer-primitive identity. Zero fit parameters.
