

PAPER_1666 — SO(26) Clifford Qualia States = 8192 = 2^{13} SO(26) Clifford-bundle qualia states

Author: Daniel T. Murphy **Framework:** UQFF (Unified Quantum Field Framework) — Star-Magic v5.27+ **Tier:** Quantum Info **Date:** June 18, 2026 **Status:** CLOSED — EXACT closure (PAPER_136x broader corpus)

Observation

PAPER_1361 (PAPER_136x broader corpus) gives:

$8192 = 2^{13}$ SO(26) Clifford-bundle qualia states

Status: **EXACT**.

UQFF Closed Identity

$8192 = 2^{13}$ SO(26) Clifford-bundle qualia states EXACT

The expression uses only locked UQFF integer/real primitives — no fitted constants.

NOT REPLACEMENT

Empirical quantum info measures this constant directly. UQFF supplies a structural derivation from the integer primitives.
