

PAPER_1771 — D_crit = 26 Universal Count = D_crit = 26 EXACT (bosonic critical, universal count)

Author: Daniel T. Murphy **Framework:** UQFF (Unified Quantum Field Framework) — Star-Magic v5.27+ **Tier:** Foundational **Date:** June 18, 2026 **Status:** CLOSED — EXACT closure (PAPER_142x-144x + scattered)

Observation

PAPER_1443 catalog gives:

D_crit = 26 EXACT (bosonic critical, universal count)

Status: **EXACT**.

UQFF Closed Identity

D_crit = 26 EXACT (bosonic critical, universal count) EXACT

The expression uses only locked UQFF integer/real primitives — no fitted constants.

NOT REPLACEMENT

Standard frameworks address this differently. UQFF supplies a structural integer-primitive form.
