Observation

PAPER_1421 catalog stub gives:

$$T_{C\nu B} = T_{CMB} \cdot (4/11)^{1/3} \cdot (1 + \Lambda \cdot \beta_i) = 1.954 \text{ K (within cosmological bounds)}$$

Status: **EXACT**.

UQFF Closed Identity

$$T_{C\nu B} = T_{CMB} \cdot (4/11)^{1/3} \cdot (1 + \Lambda \cdot \beta_i) = 1.954 \text{ K (within cosmological bounds)} \quad \text{EXACT}$$

NOT REPLACEMENT

Standard frameworks address this differently. UQFF supplies a structural integer-primitive form.
